H Team Evaluation

Communication: How willing the team member was in communicating with others and was updated on all the team discussions

Technical Contribution: How sound the team member was in the technical part

Timely Delivery: How efficiently the team member submitted on time.

Evaluation Criteria: The evaluation was done from 1 to 5 on each section and an average of weighted sum

Sumrish's Review Towards Other Developers

Developer Name	Communication	Technical Contribution	Timely Delivery	Average	Comments
Mehadi	5	5	5	5	Assistance was provided whenever I was stuck on the coding task or was unable to understand the backend functionality.
Adithya	5	5	5	5	Gave his best regarding Knowlegde transfer/ technology stack understanding / Github issues resolving.
Majid	5	5	4	4.67	Overall a good teamate. A little lazy to meet the deadline this time.
Heshani	5	5	4	4.67	Overall a good teamate. A little delay to meet the deadline this time.

Adithya's Review Towards Other Developers

Developer Name	Communication	Technical Contribution	Timely Delivery	Average	Comments
Mehadi	5	5	5	5	Am happy about how Mehadi helped organize team aspects while I had to absent due to my finals, as well as his techincal contributions.
Sumrish	5	5	5	5	Showed great willingness toward taking up backend work for the last Sprint, along with Heshani, and completed the code task on time.
Majid	5	5	5	5	Improved communication by reaching out well ahead of time to seek out tasks and figure out issues with ongoing items, as well as volunteering to help with architecture diagrams. Also contributed several unit test worthy code this Sprint.
Heshani	5	5	5	5	Worked with Sumrish, with superb coordination, and completed a backend code task fully well, despite prior lack of experience at it during the semester.

Mehadi's Review Towards Other Developers

Developer Name	Communication	Technical Contribution	Timely Delivery	Average	Comments
Adithya	5	5	5	5	He has always been the person who brought the most expertise in the technical part, both in the documentation and in coding. Was up to the mark in communication and delivering on time despite having finals and other issues. I got to learn many new things from him, especially in git.
Sumrish	5	4.75	5	4.92	She has been super active in the tasks. Did not hesitate to ask for help and promptly delivered all the tasks before the deadlines.
Majid	5	5	4.75	4.92	He has been very reliable in the team. He always took the tasks upfront and did his best. However, he was a bit late in delivering the tasks on time.
Heshani	5	4.75	4.75	4.83	She worked in the backend with sync with other devs. Delivered the assigned tasks and updated us with all the things we might have overlooked. She was a bit late in providing the tasks at the end of the semester due to her other course finals and sickness, which is understandable.

Majid's Review Towards Other Developers

Developer Name	Communication	Technical Contribution	Timely Delivery	Average	Comments
Mehadi	5	5	5	5	Over all an excellent teammate. Is always available to help and never hesitates to reach out in case he faces any issues. Posesses great technical knowledge and performance was always up to the par in all sprints, especially this one.
Sumrish	4.5	4.5	5	4.67	Great person to work with. A little non-serious at times, but made up for what she was lacking in this sprint by working on the back-end code as well and reaching out whenever she needed help.
Adithya	5	5	4.5	4.83	Lead from the front always, across alll sprints. This sprint, was a bit late with the deliverables, but that's understandable considering he also had a lot on his plate and his PR was complex.
Heshani	4.5	5	5	4.83	Heshani is easy to work with, but this sprint was a bit unavailable (as compared to last sprints, but she had some finals and health concerns, so that's justified.) She improved on her technical contribution greatly this sprint and improved a lot.

Heshani's Review Towards Other Developers

Developer Name	Communication	Technical Contribution	Timely Delivery	Average	Comments
Mehadi	5	5	5	5	Has a good technichal depth, dedicative and timely. Never hesitates to help others to get coding issues resolved. Voluntarily takes challenges like resolving issues, documentation and works hard for delevering a better outcome.
Sumrish	5	4.5	5	4.83	Capable of both front end and backend. Never fails to meet the deadline. And need mote technical depth in some areas and she is improving day by day. Very collaborative and managed my delays of deleverables which occured due to my bad health condition.
Adithya	5	5	5	5	An asset to the team with an amazing technical depth. Never hesitates to help others. Has amazing problem solving skills. Sound knowledge in design patterns and architecturing. And really good in explaining things. Expertised on Github. Gave his best to level up the overall product.
Majid	5	5	4.5	4.83	Good friend and a communicator who is improving. Learning and improving the things has caused little delays in deleverables. Has really good documentation skills and never hesitates to help others.

Summary

Name	Score
Mehadi	5
Adithya	4.96
Majid	4.86
Sumrish	4.86
Heshani	4.83
